15. Universal Services Counter Terrorism and Security Policy.

Statement:

Universal Services (Sports Equipment) Limited does not support or condone, in any shape or form, any type of terrorism:

We pride ourselves in our ability to identify any potential security threats to people or property.

Our Employees have driver policies and procedures that they follow, some of them daily.

We have in our portfolio HM services customers, with whom we work closely with on security matters.

We train our staff in counter terrorism tactics and have written procedures for them to follow.

We have appointed The Director Colin Rhodes as our Counter Terrorism Champion. Contact the office to report an incident to him.

Background:

In recent years, fleets have had to face an increasing security threat: the possibility that one of their vehicles may be used in a terrorist attack. Last year, 14 people were killed in London in three separate Vehicle as a Weapon (VAAW) attacks where commercial vehicles have been used as ramming devices. Having said this, at the time of writing this policy, the threat to the UK from terrorism remains high, with the threat level set at "severe".

Security services acknowledge that terrorists are increasingly relying on home-grown, 'low-tech', 'lone agent' attacks against public spaces in the West, with propaganda being distributed favouring vehicles as a weapon.

However, although it may feel like this attack method is becoming more widespread, the likelihood of a vehicle attack is low: 37 million vehicles are registered in the UK, UK residents make around 15.5m rental transactions in the country each year (10.9m: cars, 4.6m: vans), yet only a handful have been used as weapons in this way.

Risk Assessment:

Because of the type of work that Universal services carries out, we believe that the risk of our Employees meeting any form of terrorist activity is extremely low.

The thinking behind this, is.

- 1- We very rarely have vehicles that travel outside of the country. (The last time was to Europe in 2016)
- 2- We do not carry any high-risk loads or any loads that are of a high value.
- 3- We do not carry any large amounts of money.
- 4- All our drivers are vetted and checked as per employment and FORs guidelines.
- 5- We do not travel by pre-planned or regular routes, and in fact we are very rarely at any location for more than one visit per year.
- 6- We have no customers who work in areas that could be considered extremely contentious.
- 7- Our site is in a remote location and has not historically had any reported break-ins or vandalism in the area.
- 8- The site has only one access and egress point, which is locked and gated when the site is not in use.

Because we assessed the risk to be very low, our policy reflects this.

By using Pro-active measures, rather than a Reactive measure after the event. With the above assessment in mind.

Prevention Policy:

- 1- All vans and lorries are sign written.
- 2- All vans and lorries are fitted with telematics.
- 3- All vehicles are fitted with alarms.
- 4- All drivers are warned that they are not allowed to pick up hitch hikers.
- 5- All drivers must lock their vehicles when they are not with them.
- 6- All drivers must have had their FORS training in counter Terrorism in the last 24 months.
- 7- Any employee who is issued with a company phone has the phone either password or fingerprint protected.
- 8- All drivers report to the managers, who organised the creation of the Counter Terrorism Policy

Drivers Policy:

- Daily walk-around, thorough checks on the vehicle and assessing any potential tampering.
- Plan routes in advance to avoid any difficult manoeuvres and situations.
- Do not leave vehicle unlocked or unattended with the engine running or keys in ignition.
- Stay in safe and secure parking areas when parking overnight and taking rest breaks.
- Whenever out of sight of your vehicle ensure that it is secured.
- Understand what to look for when stopped by authorities, Driver and Vehicle Standards Agency and undercover police.
- Look out for suspicious behaviour. Be the eyes and ears of the road.
- Be aware of 'ACT' – Action Counters Terrorism and 'Run, hide, tell' Government campaigns.
- **United Kingdom:** 999 is the official **emergency number** for the **United Kingdom**, but calls are also accepted on the European Union **emergency number**, 112. All calls are answered by 999 operators. Calls are always free. Always contact the office for any instructions or help required,

Copy this link into your browser, for information: - <https://www.gov.uk/ACT>

Operators Policy:

- We ensure drivers are following the FORS professional development via driver training, toolbox talks and Government videos.
- We have a policy in place on terrorism and vehicle attacks for all staff.
- We distribute policies and procedures to all staff concerned and get them acknowledged.
- We Investigate areas of the business that could be vulnerable to suspicious activity, for example, the security of our site and vehicles and driver whereabouts.
- We do not use agency drivers, so ensuring that we are aware of the individuals that will be driving our vehicles.
- We ensure drivers are aware of key, site, and vehicle security.

- The building is fitted with an alarm system that is in line with our insurance policies specifications.
- The premises are covered with a CCTV system that is in line with our insurance policies specifications.
- We carry out regular reviews of the effectiveness of our security, but. After.
 1. A security incident within the business
 2. A security incident in our neighbourhood
 3. A change in our business practice, and
 4. When information is received about threats
- Our policy is reviewed periodically and updated if required, (controlled by the register).
- We employ an outside contractor to deal with our IT security. On top of this we have system back procedure, whereby a copy is taken at the end of each working day and stored off site.

18. Public Interest Disclosure Policy (Whistle Blowing Policy)

We encourage an open culture in all our dealings with employees, managers and all the people with whom we come into contact. Effective and honest communication is essential if malpractice is to be effectively dealt with. The procedure below provides guidelines to all our employees, casual, temporary agency staff, freelancers, trainees, home workers and contractors, who feel they need to raise certain issues, in confidence.

The Public Interest Disclosure Act 1998 (commonly known as the 'Whistle Blowing Act') protects workers who raise legitimate concerns about specified matters from being dismissed by the Company or being subjected to detrimental treatment or victimised by either the Company or colleagues as a result, provided certain criteria are met. Certain kinds of disclosures qualify for protection, and these are set out below. These are disclosures of information which a worker reasonably believes are made in the public interest and tend to show one or more of the following relevant failures is either happening now, took place in the past, or is likely to happen in the future.

- A criminal offence has been committed including offences such as theft, fraud or acts of bribery.
- A person has failed, is failing, or is likely to fail to comply with a legal obligation which they are subject to.
- A miscarriage of justice.
- A danger to health and safety of any individual.
- Damage to the environment.
- Deliberate covering up of information tending to show any of the above five matters.

The procedure is not a substitute for the Disciplinary and Grievance policy and is not a channel for you to raise matters in relation to your terms and conditions of employment. The procedure allows you to have your concerns treated in confidence.

Your Protection

If you raise a genuine concern, you will not be at risk of damaging your position as a result. Provided you are acting in the public interest it does not matter whether or not your concern proves to be well founded. You must however make your complaint to the right person and in the right way as detailed in this policy. The Company does not of course extend this assurance to someone who acts from an improper motive and raises a matter they know to be untrue.

Your Confidence

The Company will not tolerate the victimisation of anyone raising a genuine concern and anyone responsible for such conduct will be subject to disciplinary action. You may decide that you want to raise a concern in confidence. Therefore, if you ask for your identity to be protected, it will not be disclosed without your consent. If a situation arises where it is not possible to deal with the concern without revealing your identity (for instance because your evidence is needed in court or a disciplinary hearing), there will be a discussion as to whether and how we can proceed. This policy does not cover the situation where information about malpractice is received anonymously; however, discretion will be used in the investigation of such information.

How to raise your concern

Stage 1: Internal Line Management

If you have a concern about malpractice, we hope you will feel able to raise it first with your line manager or a more senior manager. This should be done in writing. It will help if you state the facts of the matter clearly. You can outline how you would like it to be investigated. If you have a direct or personal interest in the matter, you should also tell us at this stage.

Stage 2: Alternative Contacts

If you feel unable to raise the matter with someone in your line management, for whatever reason, please speak to the General Manager or a Director.

If you want to raise the matter in confidence, we will ensure that practical measures are put in place to protect your identity. We will contact you by the most secure means. We will not disclose your identity without your consent, unless we are required to do so by law.

Once you have reported your concern, the Company will investigate it to assess initially what action should be taken. If your concern falls more appropriately within other policies, we will tell you. A manager will be asked to carry out the investigation.

The disclosure will be treated seriously and promptly investigated and as part of the process the worker will be interviewed and asked to provide a written statement. Once the Company has finalised the investigation any necessary action will be taken.

While the purpose of this policy is to enable us to investigate possible malpractice and take appropriate steps to deal with it, we will give you as much feedback as we properly can. If requested, we will confirm our response to you in writing. Please note, however, that we may not be able to tell you the precise action we take where this would infringe a duty of confidentiality owed by us to someone else.

If you are dissatisfied

If you are unhappy with the Company's response, you may then go to the proper authority. However, we do ask that matters are reported to the Company in the first instance. While we cannot guarantee that we will respond to all matters in the way that you might wish, the matter will be handled fairly and properly. By using this policy, you will help us to achieve this.

19. Health and Wellbeing Policy

Definition.

The Health & Safety Executive define stress as being “the adverse reaction people have to excessive pressures or other

types of demand placed on them”. However, it is important that the difference between “pressure” and “stress” be

acknowledged: pressure does not necessarily give rise to stress and pressure can sometimes motivate. Whilst

acknowledging that pressure and stress may also be caused by a range of external issues, Universal Services (Sports Equipment) Ltd prime responsibility is to address work related stress.

Causes of stress.

The Health & Safety Executive (HSE) has identified six primary areas of risk in the causes of stress. The following HSE chart identifies the main causes of stress and provides a brief indicator of what can be done to manage these risks:

Cause of Stress	What can be done
<p>1. <u>Demands.</u></p> <p>Employees often become overloaded if they cannot cope with the amount of work or type of work, they are asked to do</p>	<p>The job design and the provision should be considered to identify ways to manage the overload. Consideration should also be given to alternative work patterns and environment</p>
<p>2. <u>Control.</u></p> <p>Employees can feel disaffected and poorly perform if they have no say over how and when they do their work. Management micromanaging employees work.</p>	<p>Consideration should be given as to how employees are involved in decision making and their contribution as individuals and as part of teams.</p>
<p>3. <u>Support.</u></p> <p>Employees can feel isolated and stressed if they feel they cannot speak with their line managers or if they do not feel they have adequate support or provided with constructive feedback and advice</p>	<p>Employees should be given the opportunity to discuss the issues causing stress with their line manager sympathetically and should be kept informed of any developments or changes.</p>
<p>4. <u>Relationships.</u></p> <p>Employees can often experience problems relating to bullying, harassment, or discipline because of poor working relationships or lack of recognition or reward.</p>	<p>The policies and procedures relating to handling grievances, absence, misconduct and bullying and harassment should be reviewed on a regular basis.</p>
<p>5. <u>Role</u></p> <p>Employees can feel anxious if there is ambiguity regarding their role or where there is a lack of clarity in terms of what is expected of them.</p>	<p>Particular attention should be paid to the induction of new staff and the creation of meaningful and well-structured job descriptions.</p> <p>Every effort should be made to maintain a close link between individual targets and organisational goals.</p>

<p>6. <u>Change</u></p> <p>Changes in market demands, technology, world affairs and organisational structure can lead to insecurity and uncertainty.</p> <p>Management changing their minds or changing the work at the last moment.</p>	<p>Where changes are anticipated every effort must be made to communicate/consult with all those affected and to discuss and resolve issues together.</p>
