

We can manufacture and install many variations of padding throughout the UK.

The design and installation is completely handled by our dedicated Installation team and can undertake all padding requirements including walls, floors, doors, columns, posts and poles from a range of different colours from our stock PVC colours

[VIEW PRODUCT](#)

Our team can ensure that safety padding can be installed ensuring that any sharp or dangerous corners are made safe to prevent injury. Column padding can be used both indoors and outdoors for floodlights, columns, post and poles

Names and logos can be printed onto the covers at no extra cost

We have also supplied and installed trampoline rebound therapy rooms including supplying of the trampoline
