## 2 Q BUILD STAGING SYSTEM

The Q-Build staging system combines versatility with great strength. It answers a wide range of needs for the performing arts, for music and for display. The systems' unusual design encourages creative participation - an almost infinite number of layouts can be achieved

A range of Q-Build kits are available. These are an excellent way of making a balanced purchase. Self-contained, they combine all necessary parts to construct platforms of many different shapes and sizes. Extension kits provide existing customers with options to achieve a larger area or to convert to a tiered layout

Q-Build decks are 750mm x 750mm made from best quality birch plywood, finished in UV-cured, slip resistant acrylic lacquer as standard. Panels can be carpet covered, stained or emulsion finished in black

Q-Build exceeds BS4875 (parts 5 and 6) strength and stability tests and are proven for a range of stage and tiering layouts
