TEN1009* **£51.39 each**

Black tournament tennis net, 12.8m long manufactured from 2.5mm single twine polyethylene with black banding on the side and bottom

Our quality indoor tennis back drop screens are made to suit any hall size and in various different ways

Our indoor tennis screen can be hung from support brackets to main steelwork incorporating full framework to all sides of tennis screens, manufactured from 33mm diameter steel powder coated tubes. Alternatively tennis back drop screens can be loose hanging from steel tension wires or heavy gauge aluminium alloy extruded trackway allowing them to be retractable if required

Tennis screens can be manufactured to incorporate vision panels, pull out fire exit panels etc

Our Tennis division nets and division screens can be hung from steel tension wires or heavy gauge aluminium alloy extruded trackway

We can offer various types of nets with different mesh sizes and options to incorporate cotton screens as a visual division between courts. If screens are to be provided we would recommend using trackway and can be supported by lanyard cords which prevents the netting from stretching
